

Suntrap Shared Stories

'Wendy Gabriel

Pupil at Connaught School in 1980's

I went to Connaught School in Leytonstone during the '80's.

I can vividly remember from the little oasis of Suntrap, seeing a real-life owl and the stunned silence of the class when the bird almost completely rotated its head.

Also feeling the skin of a snake and being shocked that it was smooth to the touch, not slimy as expected.'
