

Our Living Planet - nature & food

Secondary Keynote Activity Ideas

Quick idea

Watch the keynote video then discuss:

- How does it make you feel?
- Do you think food waste is worse for people or the environment?
- Are there foods you are willing to have less of?

Food matters

Food is a necessity and a great pleasure but farming and production has a huge ecological impact – and then approx. 1/3 gets thrown away! [Read more.](#)

Lesson ideas

[Too Good To Go](#) has a sets of educational resources for age 10+ including case studies, quizzes and activities.

The Countryside Classroom is a database of 100s of resources including this on [climate change, farming and biodiversity](#)

If global food waste was a country, it would be the third largest greenhouse gas emitter after the US and China

Dig Deeper

Equity concepts: learn about food sovereignty. [This video is a good start.](#)

Sticky solutions:

Watch this series of [Plenty to Share animations.](#)

Debate: Is food surplus and good solution to food poverty?

Energy from waste: research the [use of food to produce energy](#) through anaerobic digestion.

Creative Inspiration

Watch [‘Don’t Waste’](#) by Lammas Secondary School spoken word group.

Develop students’ creative talents to promote heartfelt messages about the climate crisis and positive action.
